BULLYING PREVENTION
MONTH - PRINCIPALS**

Mrs. Jane Hall, Director, Special Education, provided background information on the Youth Risk Survey. On December 1, 2015, the School Board authorized the administration of the communities That Care Youth Survey in grades 8, 10 and 12 at BCHS during the 2015-2016 academic year as a means of gaining knowledge about our students' perceptions and use of drugs and alcohol. A powerpoint presentation by Mrs. Hall highlighted youth survey results for 2011 and 2016. The graphs and tables represented areas typically of most interest for school systems – demographics, prevalence of 30-day use, perception of risk, students' perception of parental disapproval of use, age of first use, risk and protective factors. The drugs included in this summary are cigarette use, alcohol use, marijuana use and prescription drug use during the past year. Marijuana is typically used as a measure of illegal drug use as it is by far the most commonly used of the illegal drugs. Mrs. Hall suggested the schools target another survey in 2018 for comparison to 2016. Mrs. Hirsh said survey results showed a positive impact for students that had participated in the tobacco prevention program that was taught by Mary Adderton.

Mr. Ed Ozols, Technology Supervisor, said all students in grades 7-12 have a school issued computer to complete their school work at school and home. Students in lower grades have access to school issued tablets. Mr. Ozols said it is exciting to give students skills they will use in the workforce. Mr. Ozols said teachers can push files out to the students while they are in school so that students who have no or limited access to the internet at home still have access to the digital materials they need to be successful in their classes. He said this might be helpful on winter days when we are unable to go to school.

Mrs. Hirsh provided an update on the 2016 Virginia On-Time Graduation Rates released on September 28th.

**16-17: 066
ON-TIME
GRADUATION RATE**

- Of the 48 students who entered the ninth grade in the fall of 2012, 93.8% completed an approved diploma within four years, compared to last year's completion rate of 89%.
- The state average On-Time Graduation Rate is 91.3% for this cohort group.
- An advanced studies diploma was earned by 47.9% of BCHS students, below the state average of 51.7%.
- Bath's dropout rate was 2.1% - about the same as last year's cohort group, 2.2%, while the state average was 5.3% this year, and 5.2% last year.

In summary, Mrs. Hirsh said the approved diploma rate within four years increased a bit, the advanced diploma dropped slightly and the drop-out rate was better than last year and lower than the state average.
