**SUBJECT:**                      SUPERINTENDENT’S REPORT – PRESENTATIONS/ INFORMATION

School Improvement Plan Implementation

**BACKGROUND:**                      The Office of School Improvement (OSI) conducted an academic review at Valley Elementary School on December 12 and 13, 2013. As a result essential actions have been identified to promote academic achievement in mathematics. Although Valley is intended as the direct beneficiary of this process other division schools will benefit as well. Principals will provide updates on school improvement activities in their schools.
