## **WHAT NASCAR AND SCHOOL BOARDS HAVE IN COMMON**

*C. Ed Massey, Past President, National School Boards Association*

NASCAR is one of America's most popular sports. Victory in a NASCAR race is often decided by thousandths of seconds. A commitment to excellence and teamwork is necessary to propel a team to victory lane. This session will evaluate the concepts and principles within NASCAR that are analogous to school district operations. Teamwork is only successful if each participant knows their role and executes that role to perfection. Each participant in NASCAR is comparable to participants in the educational process. From team owners to fans and vendors, all have a place just as in education. Administrators, teachers, board members, students and parents all play specific roles. This session will break down these responsibilities with the ultimate goal of putting your district in "victory lane"!

## **RESHAPING CONTENT, ENGAGING STUDENTS: WHAT BOARD MEMBERS NEED TO KNOW**

*Apple Inc.*

For a generation of paper-centric school leaders, the rapid acceleration from print to digital content raises lots of questions. How do students take notes? Is the online textbook the same as the print? What is the advantage of using digital content? How do school systems manage the shift? In addition, take a hands-on tour with Apple to learn how the iPad is changing the learning experience, making it more engaging, interactive, and completely mobile.
