FREE WEBINAR: What School Board Members Need to Know about School Bus Safety A Primer for School Bus Safety Week

October 25, 2018

In honor of National School Bus Safety Week October 22-26, 2018, the largest insurer of school transportation fleets in Virginia, VACORP would like to share with school boards and school administrators across the Commonwealth the knowledge we have gained about risk, safety, analytics, best practices, training, retention, and motivation. Our risk control team trains tens of thousands of bus drivers, car drivers, and aides annually. This webinar will review the main issues we are covering in training, serious concerns drivers are communicating to us, and best practices implemented across the Commonwealth when it comes to training, seat belts, video cameras, stop-arm devices, and driver retention. We will also share tools that you can use to motivate and recognize your drivers for doing the important work of transporting your children to/from school each day. We are passionate about transportation safety and are excited to work with you to save lives and continue operating what we believe to be one of the safest school transportation fleets in America. Please feel free to share this webinar with your division's transportation department.

Coach Carter

When famed high school basketball coach Ken Carter literally locked his undefeated, state play-off bound team out of the gym and forced them to hit the books and stop counting on athletic potential as the only ticket out of a tough, inner city life, he sent a powerful message. At the podium, Coach Carter scores with hard-hitting advice about accountability, integrity, teamwork and leadership to succeed both on and off the basketball court.
